MADE FOR REAL SHOPS

Everything the counter needs — nothing it doesn't.

Plantora is a billing app built for plant nurseries in India. Big buttons, clear numbers, and no clutter — so anyone at the counter can make a bill in seconds, even on a busy morning. Your sales, your cash, and your customers, all in one calm place.

Bill in seconds

Tap a plant, set the price, done. Cash, UPI or split — the maths is automatic.

Send on WhatsApp

The receipt reaches the customer in one tap, with a PDF and a payment QR.

Know your day

Sales, expenses and cash-in-hand, clear every single evening.

"Add a plant, set the price, take the money — three taps and the bill is saved."

Built the way good tools should feel: nothing hidden, nothing silent. Every action shows a clear **saved**, **sent** or a plain-language message — never a raw error code. And because many shop owners aren't young, the whole app is drawn large, high-contrast, and forgiving.

BILLING, THE EASY WAY

The core, done right.

The billing screen is the heart of Plantora — fast for the shop, exact for the money.

Tap to add, big +/- steppers

Every plant with a photo. Quantity in one thumb-tap.

Price it your way

Prices pre-fill but every line is editable — the same plant sells at different prices by size.

Cash, UPI or split

Show a UPI QR at the counter; the split auto-fills the rest. Totals always add up — enforced on our server.

Take part-payment

Customer pays some now, owes the rest — saved as a due, tracked automatically.

No double bills

A quick double-tap can never charge twice. Old bills never change, even if you edit a plant later.

The screenshot shows the 'Review bill' screen in the Plantora app. At the top, there's a 'Clear cart' button and a close icon. Below that, the first item is 'Aglonema' with a price of ₹850. The price is shown in a green box, and there are minus, plus, and quantity (1) buttons. Below the item list is a '+ Add item' button. The 'Discount' section has three options: '₹ Flat', '% Percent', and 'Amount'. The 'Subtotal' is ₹850, and the 'Total' is ₹850. The 'Customer (optional)' section has fields for 'Name' and 'Phone (for receipts)'. The 'Payment' section has three options: 'Cash', 'UPI', and 'Split'. At the bottom, there's a 'Due (owed later, optional)' field. The screen is divided into 'Cash' and 'UPI' sections at the very bottom.

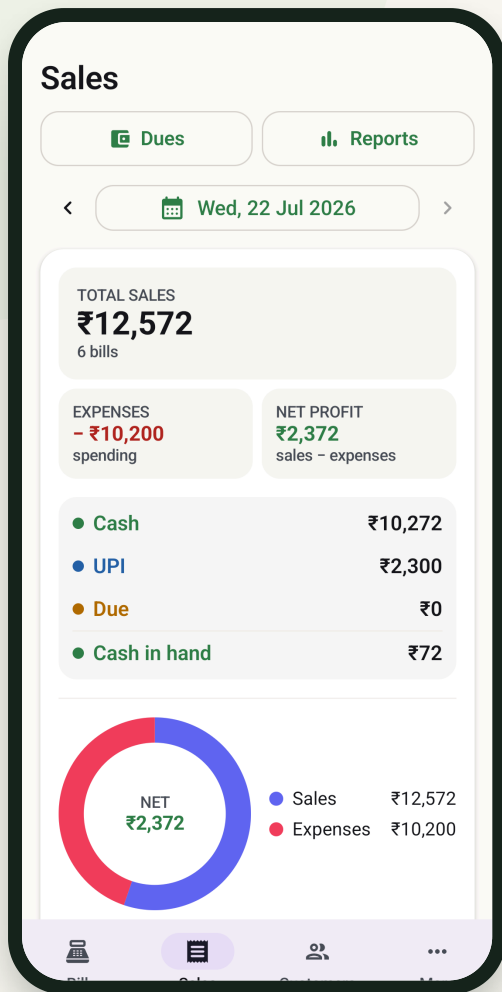

Barcode scanning

Voice search

Quick add

Flat ₹ or % discount

UPI QR at checkout

BEYOND THE BILL

The whole shop, in your pocket.

Dues & khata

A clear list of who owes what. Collect full or part payments; see the total outstanding at a glance.

Daily cash book

Opening balance, cash sales, expenses and a live **Cash in Hand** — the one number you check at night.

Products & photos

Build your catalogue with a photo and price for every plant. Search, or just tap.

Reports & staff

A tidy report for any day, week or month — download as Excel or send on WhatsApp. See who sold the most.

Borrowings

Track money the shop borrows and repays — it flows into Cash in Hand automatically.

Labour & wages

Roster, attendance, wages and advances — cash, UPI or owed, all recorded.

Thermal printing

Pair a Bluetooth thermal printer and print clean receipts straight from the phone.

BUILT TO BE TRUSTED

Careful with money. Careful with people.

The things you can't see are what make a billing app worth trusting. Plantora is exact with every rupee and strict about keeping each shop's data private.

Your money is exact

Every total is calculated on our secure server, to the paisa — never rounded wrong, never guessed.

Your data is private

Each shop's information is walled off from every other shop, right at the database.

Old bills never change

A saved bill keeps its prices and names forever, even if you edit a plant later.

Nothing goes silent

Clear "saved", "sent" and plain-language messages, so you always know what happened.

Works offline-tolerant

A saved sale never depends on a print or a WhatsApp send succeeding.

Multi-shop ready

Own several shops? One owner view shows each shop and the aggregate, with a staff leaderboard.

Made for every hand — large text, high contrast, big touch targets, and voice & barcode search for speed. Calm enough for a first-time user; fast enough for a busy one.

EVERYTHING IN ONE APP

One app for the whole counter.

Everything a plant shop actually does in a day — billing to cash book to staff — without juggling notebooks, calculators and a dozen apps.

One-tap billing

Photos, steppers, editable prices.

Barcode & voice

Scan or speak a plant's name.

Split & UPI QR

Cash, UPI or both, with a QR.

Dues & khata

Track and collect what's owed.

Daily cash book

Cash-in-hand & expenses.

Borrowings

Money the shop owes, tracked.

Labour & wages

Roster, attendance, payments.

Products & photos

Your full catalogue.

Reports (Excel)

Any day, week or month.

WhatsApp receipts

PDF bill in one tap.

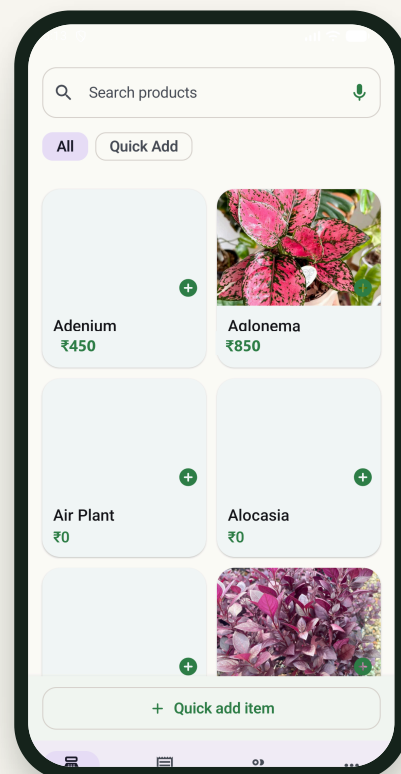

Thermal printing

Bluetooth receipts.

Staff & multi-shop

Accounts & leaderboard.

Available on **Google Play** as a signed Android app, and as an **installable web app** on any phone or laptop — same account, same data.

ROLES & PERMISSIONS

Everyone sees exactly what they need.

Plantora has three shop roles. Each person gets a screen built for their job — the counter stays simple, the manager runs the shop, and a multi-shop owner oversees it all. No one sees more than they should.

Salesperson

Manager

Owner

WHAT THEY CAN DO	SALESPERSON	MANAGER	OWNER
Make bills at the counter	✓	✓	—
Split / UPI QR / part-payment	✓	✓	—
Collect a due	✓ needs approval	✓	—
Approve due collections	—	✓	—
Products & catalogue	—	✓	—
Sales, history & edit bills	—	✓	✓ view
Cash book, expenses, borrowings	—	✓	✓ view
Labour & wages	—	✓	✓ view
Reports & Excel export	—	✓ own shop	✓ all shops
Manage staff	—	✓ salespeople	✓ managers + staff
Edit shop business details	—	✓ own shop	✓ owned shops
Multi-shop overview & leaderboard	—	—	✓

Accounts are created for you — there's no public sign-up. The platform admin (Dofida) sets up each shop, its owner, and staff, and can reset any password.

Salesperson

At the counter.

One clear job, done fast: making bills. The simplest possible screen, for the busiest person in the shop.

Make bills in seconds

Tap a plant, big +/- steppers, and edit any price per line.

Barcode & voice search

Scan a barcode or speak a plant's name — built for speed and for low-literacy users.

Discounts, split & UPI QR

Flat ₹ or %, Cash / UPI / Split, and a scannable UPI QR at checkout.

Take part-payment & capture customer

Customer pays some now, owes the rest (a due). Add name + phone for the receipt.

Send the receipt & collect dues

Share on WhatsApp or print it. Collecting a due goes to the manager for a quick approval.

The mockup shows a 'Review bill' screen with a green header bar containing a 'Clear cart' button and a close icon. The main content area is white with a light green border. It lists an item 'Aglonema' with a price of ₹850 and a quantity of 1. Below this is a '+ Add item' button. The 'Discount' section has three options: '₹ Flat' (selected), '% Percent', and 'Amount'. The 'Subtotal' is ₹850, and the 'Total' is ₹850. The 'Customer (optional)' section has fields for 'Name' and 'Phone (for receipts)'. The 'Payment' section has three options: 'Cash' (selected), 'UPI', and 'Split'. At the bottom, there is a field for 'Due (owed later, optional)' and a 'Cash' button.

Nothing to configure

Big buttons, large text

No reports or settings to worry about

Runs the whole shop.

Everything a salesperson can do — plus the full running of the shop, day to day. This is the elderly-friendly app most owners use themselves.

All billing

Every counter feature the salesperson has.

Products & photos

Build and edit the catalogue with prices & images.

Sales & edit bills

Full history; edit a bill with a forward-only audit log.

Daily cash book

Cash-in-hand, opening/closing, expenses.

Dues approvals

Approve or reject staff due-collections.

Borrowings

Money the shop owes, into Cash in Hand.

Labour & wages

Roster, attendance, wages & advances.

Reports & Excel

Any period; download or send on WhatsApp.

Manage salespeople

Create, activate, reset password, remove.

Shop details & settings

Business info, WhatsApp & printer setup.

The manager view **is** the classic Plantora shop app — large, calm, and forgiving, so an elderly owner can run everything from one phone.

Owner

Oversight across every shop.

For business owners with more than one shop. See everything; run nothing at the counter.

Every shop + one overview

Each owned shop plus a combined total across all of them.

Per-shop reports & cash

Summaries, reports, bills and cash-in-hand for any shop, any period.

Cross-shop staff leaderboard

See who's selling the most, across all your shops.

Manage staff

Create managers & salespeople in owned shops; activate, reset, remove.

Edit shop business details

Name, address, phone, UPI for each owned shop.

Oversight only

Owners don't bill or edit products — this role is for watching the business.
